

2.3. Gear unit

2.3.1. Vibration velocity spectra

Fig. 18: Vibration velocity spectrum, input shaft, measurement point (Lifting side)

Fig. 19: Vibration velocity spectrum, input shaft, measurement point (Pressing side)

Fig. 20: Vibration velocity spectrum, intermediate shaft, measurement point (Lifting side)

Fig. 21: Vibration velocity spectrum, intermediate shaft, measurement point (Pressing side)

Fig. 22: Vibration velocity spectrum, output shaft, measurement point (Lifting side)

Fig. 23: Vibration velocity spectrum, output shaft, measurement point (Pressing side)

2.3.2. Envelope spectra

Fig. 24: Envelope spectrum, input shaft, measurement point (Lifting side)

Fig. 25: Envelope spectrum, input shaft, measurement point (Pressing side)

Fig. 26: Envelope spectrum, intermediate shaft, measurement point (Lifting side)

Fig. 27: Envelope spectrum, intermediate shaft, measurement point (Pressing side)

Fig. 28: Envelope spectrum, output shaft, measurement point (Lifting side)

Fig. 29: Envelope spectrum, output shaft, measurement point (Pressing side)

2.3.3. Acceleration spectra

Fig. 30: Acceleration spectrum, input shaft, measurement point (Lifting side)

Fig. 31: Acceleration spectrum, input shaft, measurement point (Pressing side)

Fig. 32: Acceleration spectrum, intermediate shaft, measurement point (Lifting side)

Fig. 33: Acceleration spectrum, intermediate shaft, measurement point (Pressing side)

Fig. 34: Acceleration spectrum, output shaft, measurement point (Lifting side)

Fig. 35: Acceleration spectrum, output shaft, measurement point (Pressing side)
